

## Utility - Trenchers

Vermeer trenchers can be equipped with a variety of attachments and feature a quad-track system for work in various ground conditions. Vermeer trencher help make quick work of fiber, gas and water utility installations with minimal ground disturbance. The advantages to micro trenching include minimal cutting width, shallow depth placement and jobsite cleanliness. Of course, this method requires the right equipment and Vermeer offers a wide range of machines and attachments designed to maximize productivity and to cut through rock, concrete and other tough surfaces, look no further than Vermeer trenchers.

### RTX1250 i2

This ride-on tractor is made to help keep you productive while installing a variety of utilities, including gas, fiber, water and electric. Take advantage of the new interchangeable features offered on this machine with the option of quad tracks or tires and a variety of self-identifying intelligent attachments such as a trencher or backhoe. Use its other intelligent features to your benefit, like the onboard diagnostics and other productivity features that can help you through rough terrain and difficult installs.

### RTX550

The RTX550 is equipped for most terrains. And with a wide selection of attachment options such as a trencher, and rockwheel, it's also equipped for most job applications. An integrated system display is user-

friendly, and a 65-hp (48.5 kW)  
Cummins diesel engine delivers all  
the power you need.
